eRoad ERP by Deltan Technologies

CONSTRUCTION ERP · 2026

NEW Bills and meter photos read by AI, free for 3 months

The construction ERP that reads your bills, meters and log books.

Purchase, store, machinery and diesel, site work, salary and accounts, site by site, in one ERP. Site staff send a photo or speak in Hindi and eRoad fills the entry. A Help assistant answers your users in English, Hinglish and हिंदी.

ONE ERP, SITE BY SITE

9 modules that work as one

Every entry belongs to a company and a site. Each site has its own stock, users and GST number where needed; head office sees all sites together. Start with the modules you need and add the rest later.

Purchase

Buy only what the site needs, at the rate you agreed.

- Material Requisition (MR)
- Enquiry to vendors (by email link)
- Purchase Order (GST)
- Purchase entry (GST billing)

Store & Inventory

Live stock at every site, store and plant.

- GRN through PO, indent or transfer
- Material Issue (MIN) to work, contractor or machine
- Item opening stock
- Stock report, group/item stock register

Machinery & Fleet

Know what every machine did today, and what it cost.

- Machine Working (daily working, idle, breakdown)
- Job sheet, job card and service log
- Insurance, permit, fitness, PUC and tax with expiry alerts
- Hire contracts for hired machines

Accounts & GST

Full books, site by site, without typing anything twice.

- Payment, receipt and contra
- Payment requisition and approval
- Bank reconciliation
- Ledger, cash book, bank book

HRM & Payroll

Attendance from site, salary from head office, compliance built in.

- Daily (day-wise) and monthly attendance
- Leave application and approval
- Salary heads and structures, with approval
- Employee master and bulk updates

RMC Sales & Production

From batching plant to invoice, every truck accounted for.

- RMC quotation, sales order and schedule
- RMC challan entry
- RMC invoice and sales invoice
- Cube tests and aggregate lab tests

Projects & Billing

Road by chainage and layer. Building by block and floor.

- Road chainages, layers and road side
- Daily Progress Report (DPR) with photos
- RA bill from DPR
- Costing of works and material templates

Admin & Controls

Each person sees and does only what you allow.

- Companies, sites, locations and GST numbers
- Users and user rights (add, edit, delete, view, approve)
- Login log and user work report
- Master Data Check: duplicate suppliers (same GSTIN) and near-duplicate items

Mobile App

The site office in your pocket.

- Indents, POs, quotations, GRNs
- GRN with photos and voice entry (Hindi or English)
- Self attendance with location and geofence
- Stock and item ledger

WHAT THE OWNER GETS

No over-purchasing
Indents and POs need approval; PO approvers are limited by amount; no GRN beyond the PO tolerance; last rates shown on every order.

Diesel you can trust
Fuel checked against meter readings and tank capacity, average per machine, and a photo of the reading.

Old entries stay closed
Back-date limits per user and screen, month lock, and who approved what and when on every voucher.

Profit by site
Stock, purchase, machine cost, work progress, P&L and Balance Sheet for each site or the whole company.

Approve from the phone
Indents, POs, GRNs, work orders, payments, salary and leave, from anywhere.

GST and TDS ready
CGST + SGST or IGST worked out on every entry, GST and TDS reports, payroll with PF and ESIC.

AI THAT ENTERS DATA

Photo in, entry out. A person checks and saves.

Read bill from photo

On the GRN and Purchase Bill screens: supplier (matched by GSTIN), bill number and date, items, quantities, rates and GST. Items are matched to your item master and it learns your suppliers' names. The photo is attached to the entry.

Telegram photos

Your company's own bot: drivers send hour-meter photos and fuel litres, store staff send bills. The ERP makes draft Machine Working and GRN entries for a supervisor to approve, with the photo as proof.

Voice GRN

In the mobile app, the store keeper speaks the receipt in Hindi or English. Supplier, items and quantities are filled for checking.

Free for 3 months, plus a free data check

AI reading is free for every client for the first 3 months. Send us a month of your bill or meter photos and we show you what the reader finds: missed entries, wrong machines, unbooked diesel.

ERP HELP ASSISTANT

No waiting for training

A ? Help button on every screen, built on a full user manual for every module. It knows your company's own settings and answers in English, Hinglish or हिंदी. From ₹0; Standard ₹4,999 / month.

PO से GRN कैसे बनाएं? सामान आधा आया है।

आधा माल आने पर भी GRN बन जाएगा: **Store → GRN Through PO** खोलें और अपना PO चुनें। हर item में जितना आया उतनी Qty लिखें; बाकी PO में pending रहेगा।

EROAD MOBILE APP (ANDROID)

Two kinds of login

LOGIN	PER SEAT / MONTH
Employee Login Attendance with GPS, leave, OD, OT, loans, pay slip, junior approvals	₹40 → ₹20 min. 100 employees a year
User Login Site entries, approvals and reports for staff	₹400 → ₹300 min. 10 users a year
Both in one seat	User rate + ₹25
Setup & onboarding, one-time	₹20,000

Lower rate as seats grow. Same rights and data as the web ERP; OTP login; attendance with GPS and geofence.

ALSO IN EVERY EROAD ERP

Full user manual

200+ pages behind the Help assistant, for every module, error message and year-start step.

Master Data Check

Finds duplicate suppliers (same GSTIN) and near-duplicate items before they spoil your reports.

Your own database

Each company has a separate database on our server in India, with daily off-site backups.

PRICING

ERP on quotation, add-ons priced openly

The ERP licence, setup and yearly maintenance are quoted on your modules, sites and users. Hosting on our server in India, with daily off-site backups, is quoted with it.
